Product Information: Beeswax Leather Conditioner Balm

1. Product Name: Beeswax Leather Conditioner Balm
2. Description:
A rich, natural leather conditioner and restorer formulated to cleanse, seal, and protect leather goods. Handcrafted in Oxfordshire, UK.
3. Formulation:
This balm is a blend of natural oils, beeswax, and fragrance components. The key ingredients and their approximate quantities are:

- Sweet Almond Oil
- Olive Oil
- Castor Oil
- Beeswax
- Fragrance Blend:
    - Sandalwood Myrrh
    - Honey
    - Italian Leather

4. Purpose:
The Beeswax Leather Conditioner Balm is designed to:

- Cleanse the surface of leather by removing light dirt and residue.
- Seal the leather surface, providing a degree of protection against moisture and environmental factors.
- Protect the leather by conditioning it, helping to prevent drying, cracking, and premature aging.
- Restore the natural suppleness and appearance of leather.

5. Application:
For optimal results, follow these instructions:

1. Ensure the leather article is clean and free from loose debris.
2. Apply a small quantity of the balm to a clean, lint-free cloth.
3. Gently work the balm into the leather using a circular motion, ensuring even distribution over the surface.
4. Allow a brief period for absorption.
5. Buff the leather with a clean cloth to remove any excess balm and enhance the finish.

6. Benefits:

- Utilizes natural oils and beeswax for conditioning and protection.
- May help to extend the lifespan of leather goods by maintaining their moisture balance and providing a protective barrier.
- Imparts a subtle scent profile derived from a blend of sandalwood, myrrh, and honey fragrances.
- Handcrafted in the UK, ensuring a focus on quality.

7. Physical Characteristics:

- **Form:** Semi-solid balm
- **Scent:** Characterized by notes of sandalwood, myrrh, and honey, with a hint of leather.
- **Color:** Typically ranges from pale yellow to light brown, depending on the natural beeswax.

8. Packaging:
The product is supplied in a aluminum container with a net volume of 50 ml; 80 ml; 100 ml;.
9. Origin:
Handcrafted in Oxfordshire, United Kingdom.
10. Storage:
Store in a cool, dry place away from direct sunlight and extreme temperatures.

11. Safety Information:**

* For external use on **smooth leather** only.
* Keep out of reach of children.
* Avoid contact with eyes. If contact occurs, rinse thoroughly with water.
* Test on an inconspicuous area of the **smooth leather** item first to ensure compatibility and desired outcome.

12. Important Note:

This product is specifically formulated for use on **smooth leather**. **It is not suitable for suede, nubuck, or other types of "fluffy" or absorbent leather finishes.** Using this balm on these types of leather may damage their unique texture and appearance.
